

## Rig Math - Table of Contents

Chapter 1. The Need for Math Skills

Chapter 2. Basic Arithmetic

Mathematical Operations

The Hierarchy of Operations in Equations

Exercise 1 through 5

Chapter 3. Scientific Calculators

Exercise 6

Chapter 4. Units of Measurement

Exercise 7 and 8

Chapter 5. Fractions

Multiplication and division of Fractions

Fractions with Words

Decimal equivalents

Exercise 9

Chapter 6. Conversion Factors

Exercise 10 and 11

Chapter 7. Elementary Algebra

Equations with Variables

Solving for Unknown Variables.

Exercise 12

Chapter 8. Practical Problem Solving – Well Control

Kill Weight Mud

Pumping Kill Weight Mud to the Bit

Initial Circulating Pressure

Final Circulating Pressure

Calculating Strokes to Bit

Preparing the Pumping Schedule

Exercise 13 to 16

Chapter 9. Practical Problem Solving – Lost Circulation

Chapter 10. Practical Problem Solving – Slugging the Pipe

Managing Hole Fill While Tripping

Chapter 11. Homework for Practical Problem Solving

Exercise 18 - 22

Chapter 12: Drilling Equations

Appendix A Conversion Factors

Appendix B Volume of fluid in a horizontal tank.
